

SPECIMEN — Sub Roster Check

Prepared for Northgate Mechanical (SPECIMEN — not a real company)

PREPARED FOR	Northgate Mechanical (SPECIMEN — not a real company)
PROJECT	SPECIMEN — HVAC Replacement, Building C
AWARDING AGENCY	SPECIMEN Unified School District
BASIS OF CHECK	Public works
REGISTRATIONS TESTED AS IN FORCE ON	August 21, 2026
ROSTER	3 of 3 sub(s) checked
PREPARED	August 21, 2026

This is a SPECIMEN. The company, the project, the subcontractors and every finding shown below are illustrative and were not looked up against any public register. It exists so you can see the shape, the sourcing and the limits of the real deliverable before you ask for one. It states nothing about any real company and must not be relied on or forwarded as though it did.

What this check is, and is not. Every line below reports what a public register showed on the date stated, with a link back to the source. Public records reflect each agency's own database as of that date and can change at any time. Insurance lines reflect only certificates the general contractor already had on file and supplied with this roster; no insurance was collected, requested or independently verified, and no endorsement-adequacy review was performed at this tier. Nothing here is legal advice, a determination of any sub's eligibility, or a guarantee of any sub's performance.

FINDINGS THAT NEED YOUR ATTENTION BEFORE AWARD

- Harbor Line Electric (SPECIMEN) — DIR public-works registration. DIR shows a registration for this entity that is not in force in force on August 21, 2026.
- Harbor Line Electric (SPECIMEN) — Workers' compensation (CSLB record). CSLB shows a workers' compensation exemption on this licence -- a sub with employees on site cannot rely on an exemption. Confirm coverage directly.
- Harbor Line Electric (SPECIMEN) — Certificate of insurance on file. Certificate on file from SPECIMEN Mutual expires August 30, 2026 — 9 day(s) away.
